

EnduraFab™ Stretch

EnduraFab™ Stretch is a 17-mil / 5.5 oz / sq yd, 100% polyester warp knit fabric that has excellent stretch and drape, is wrinkle resistant, and has an enhanced resistance to scuffing and scratching. Ideal for exhibits, SEG graphics, retail signage and indoor banners. The one-directional stretch fabric allows for installation flexibility and ease for SEG frames and geometric trade show displays.

EnduraFab™ Stretch is proudly made in the USA.
