Printer/Ink Compatibility	Compatible with all thermal and piezo inkjet printers using water-based dye and pigment based inks.
Print Settings	MK Ink, Fine Art Textured or Archival Matte Paper Settings are recommended as a starting point.
Handling and Storage	All digital Fine Art Papers and Canvases are fragile and need to be handled with extreme care. Try not to touch the surface of the paper, always hold the paper by the edges and wear cotton gloves if necessary.
Handling and Storage	Return unused material to the original box and only store finished prints in archival quality packaging. If mounting or framing, use only archive grade tapes and glues.
Handling and Storage	After printing, leave prints open to the air to fully dry (24 hours is recommended). Do not stack prints on top of each other straight away.
Handling and Storage	Using a gliclee varnish or spray will help protect your print from damage, effects of UV light and environmental attack.
Ideal Storage Conditions	The recommended climate for storage of all papers is 15-20° C, 40-60% R.H. (a controlled environment is recommended); Always store in original packaging, out of direct sunlight and protected from moisture.
Shelf Life	1 year from the LexJet ship date when stored in proper conditions.

Note:
 The assigned numerical reading and other tests referenced in this text are not intended to reflect hazards presented by this or any other material under actual fire cognitions. Consult an architect or fire safety engineer for information on applicable building codes and reduction of fire hazards, including the use of sprinklers.
